

## ORDERING INSTRUCTIONS

### Step 1: Choose Hardware

For example: ERJ-7

### Step 2: Choose Springs

Use the spring chart in the help section to determine the springs you need based on the weight of the door.

For example: a 175lb Door Using ERJ-7 Hardware will need (2) P528's.

### Step 3: Choose a Installation Accessory kit

Residential, Light and Regular Commercial hardware only need Residential Accessory Kits.

Heavy Commercial Hardware need Commercial Kits
